

Towards a Sustainable Agro-Food INDUstry Capacity Building Programmes in Energy Efficiency

About

The INDUCE project will develop an open access toolkit where training material, online lessons, guidelines and tools will be made available for companies aiming to increase their energy efficiency. Besides, INDUCE methodology will be integrated in the platform with the objective to design a specific capacity building programme for every company accessing INDUCE toolkit, resulting in ad-hoc training adapted to the company's needs and opportunities.

The INDUCE methodology and toolkit will be tested and validated in 15 pilot companies from the food and beverage sector in four countries that represent over 45% of the EU companies in this sector: Spain, France, the Netherlands and Germany. In a second replication step, INDUCE community of trainers will be established by certifying 60 INDUCE trainers. They will be in charge of implementing INDUCE methodology in another 300 companies, hence increasing INDUCE impact up to 106 GWh/year of energy savings.

Duration: 02/2018-06/2020
Programme: H2020, EE-15-2017, CSA
Number: 785047
Coordinator: CIRCE Foundation
Contact: office@induce2020.eu
www.induce2020.eu

Target Groups

INDUCE community
and trainers

Industrial associations,
consultants, energy
experts & trainers

Companies as
end users & piloting
partners

Other interested
actors (e.g. network
organizations)
